SKIN LIGHTENING EFFECT FROM MEDITERRANEAN

Applications

SKIN CARE

SUN CARE

MAKE UP

BENEFITS

- HIGHER SKIN LIGHTENING EFFECT THAN KOJIC ACID AND COMPARABLE ACTIVITY TO HYDROQUINONE
- HIGH SAFETY PROFILE DURING SUN EXPOSURE

INCI NAME: Citrus Sinensis (Orange) fruit extract, Oryza Sativa (Rice) extract, Capparis Spinosa fruit extract, Olea Europaea (Olive) leaf extract, Maltodextrin

RECOMMENDED USAGE CONCENTRATIONS
2-3%

Everyday we get inspiration from the beauty
of mediterranean land,
providing unique and innovative solutions
for beauty and personal care market,
striving for a sustainable beauty locally and globally.

SUSTAINABLE SOLUTIONS

BIONAP is a vertically integrated company which produces standardized botanical extracts obtained from mediterranean plants and fruits. Our mission is to discover innovative active ingredients with the aim of improving the health, beauty and well-being of people world wide. It's founded in 1997 and recognized as champion of the Circular Economy, has identified the by-products, coming from the local agricultural industry, as the driver to produce **sustainable upcycled ingredients**. This involves:

- Short supply chain:** because we collaborate with local suppliers, traceable and ethically managed;
- Local certified farmland** network near to our processing facility to reduce our **environmental impact** and respect the **biodiversity**;
- Green extractions practices and renewable energy** in our production system, to reduce the **CO2 emissions**.
